Helen's Class Update	1
Listings	3

### Note from the Editor

Let's hear what's happening in Helen's kindergarten class. It's time to imagine yourself as the animal you've always dreamed of. After all the rain we've had, it's a wonder more kids aren't asking to be ducks!

## Helen's Class Update

The first graders in Helen's class are very busy in writer's workshop creating informational texts about different animals. The students also just finished creating clay animal sculptures. Animals are always a favorite topic for first graders! Natalie and Karmela were absent when Helen's students were asked "If you could be any animal in the world, which would you choose to be and why?", but here is how their friends responded -

Eleanor - "A Bunny! Because they are cute and can hop around."

Allen - "A cheetah because you could go faster and pretty much get food faster and you don't want to go too long without food."

Santino - "A dragon because I like them."

Zoe - "I'd be a bat because my favorite animals are bats."

Antonio - "A Cheetah, because then I could run very fast and they are cool."

Astrid - "Dogs are cute, so I guess I'd be a dog."

Mason - "Well, people are animals so I'll be Luke Skywalker."

Simone - "Either a monkey or a giraffe because monkeys are my favorite animal and I love giraffes because they are so tall."

Sam - "I'd be a Cheetah because I want to go really fast."

Aisling - "I would be an owl because if an enemy was chasing me I could fly away from it."

Max - "A snake because they are really good at doing obstacles."

## Ocean Shore Newsletter- April 2011

Isabelle - "I'd be a puppy because I like them and I just checked out this Biscuit book."

Lila - "I want to be a dolphin because I could go under water."

Jack - "A dragon ninja." (big smile and shrug)

Owen - "A cheetah. They're fast."

Jacob - "A fire ant because it feels like fire when they bite you."

Isabella - "I'd be a really cute puppy and then somebody would adopt me."

Eamonn - "A flying dragon because it could swoop down on people."

Maxwell - "I would probably be a puppy and have a secret code that nobody would know."

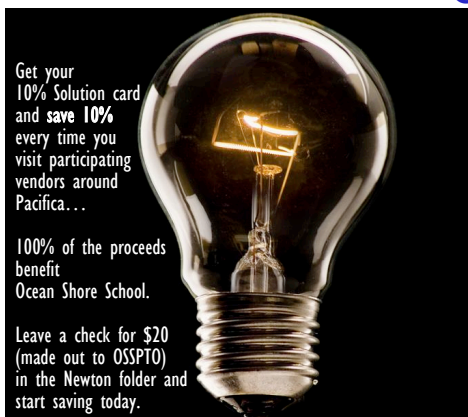

Amalia - "I would want to be a harpy eagle because I like the baby ones."

Luca - "A jellyfish because then I could be invisible and sting other animals."

Patrick - "I'd be a puppy because I like them a lot. Probably a chihuahua."
